EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mary Appollina on 8/15/2007.

The application has been amended as follows:

In the specification, the 1st paragraph has been deleted and replaced by the paragraph:

This application is a continuation of co-pending application U.S. Serial No. 10/295,995, filed November 18, 2002, now U.S. Patent No. 6,699,840; which is a continuation of U.S. Serial No. 10/232,589, filed September 3, 2002, now U.S. Patent No. 6,559,293; which claims the benefit of U.S. Serial Nos. 60/356,764 (filed February 15, 2002); 60/380,288 (filed May 15, 2002); and 60/406,974 (filed August 30, 2002), all of which are incorporated herein by reference in their entireties. This application is also a continuation of co-pending application U.S. Serial No. 10/637,829, filed August 8, 2003, now abandoned; which is a continuation of U.S. Serial No. 10/232,589, filed September 3, 2002, now U.S. Patent No. 6,559,293; which claims the benefit of U.S. Serial Nos. 60/356,764 (filed February 15, 2002); 60/380,288 (filed May 15, 2002); and 60/406,974 (filed August 30, 2002), all of which are incorporated herein by reference in their entireties.

Art Unit: 1623

In the claims:

The last 4 lines of claim 62 have been deleted and replaced by the phrase:

“located within the cavity, wherein the drug layer comprises topiramate sodium trihydrate, or a polymorph thereof”.

The last 4 lines of claim 63 have been deleted and replaced by the phrase:

“the drug layer, wherein the active agent formulation comprises topiramate sodium trihydrate, or a polymorph thereof”.

The following is an examiner's statement of reasons for allowance: the prior art is not seen to teach or fairly suggest the claimed dosage forms comprising topiramate sodium trihydrate as set forth in the instant claims. The closest prior art is seen to be US 6,699,840, which is drawn to topiramate sodium trihydrate, however, a terminal disclaimer has been filed over this patent.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
